

Microphone with Remote Start/Stop Switch Model 4805AV

The 4805AV Remote Microphone is ideal for school focused English Language Learning and English Language Development (monaural) applications. Its two differently sized plugs allow for connections and uses with different media players.

Attaching both plugs to multimedia player / recorders (2385-03, 2395AV-02, 2395IR) or cassette player / recorders (1300AV, 1500AVBL, 3432IR, 5262AV, 5272AV), enables the remote Start / Stop functionality. Connecting only one of the plugs allows one of the plugs with remote operation.

Its 6' cable and rugged ABS plastic casing (for durability) help it withstand the heaviest of school uses.

1. Unidirectional mic with protective slotted cover
2. On/off switch for remote operation
3. 6' cable
4. 3.5mm plug
5. 2.5mm plug
6. Reinforced flex points allow for bending without breakage

- One year warranty for school use - unlike microphones purchased from consumer electronics stores whose warranties would be voided if used in schools

"Project Intercept"

Please contact us immediately if you experience any issues with your Microphone. Our "Project Intercept" customer service program will quickly repair or replace items under warranty. Simply contact us via phone or email warranty@califone.com
